PROJECTS

Ami-Bridge — Campus Placement Intelligence Platform [Link](#)

- Engineered a multi-tenant placement intelligence architecture utilizing advanced AI-ML models (Groq + Gemini Vision API), reducing automated resume analysis latency by 45%.
- Built role-based dashboards via Web Services to stream real-time employability metrics for 500+ student profiles.

Glimmer — Cosmic Social Platform

- Developed a real-time messaging pipeline via WebSockets, cutting data transport latency to <120ms with automated 24-hour cache eviction.
- Integrated Gemini API for AI-ML interactions, while optimizing 3D client-side rendering by 35% using Three.js.

EXTRACURRICULARS & LEADERSHIP

- Technical Event Coordinator | Amity University
- 3× inter-college champion and district representative. Developed strong teamwork, communication, and strategic planning in high-pressure competitive environments.
- Hackathon Finalist Competed in SIH 2025 and innovate-a-thon 3.0 | BIT Mesra
Applied strong problem-solving and analytical thinking abilities to rapidly prototype AI and software solutions under strict deadlines.
